General Bruce K. Holloway  
Commander in Chief  
Strategic Air Command  
Offutt Air Force Base, Nebraska 68113

Dear General Holloway:

I wish to thank you for the highly professional briefings and tours which officers and men of your command conducted for members of the Central Intelligence Agency's Midcareer Class on 1 and 2 November 1971. The presentations and tours at Offutt and Warren Air Force Bases vividly portrayed the importance of the Strategic Air Command's role, as well as the responsibilities of the Deputy Chief of Staff, Intelligence, at SAC.

Please extend my sincere appreciation to Brigadier General Harry Cordes and Colonel Howard Pullen for an outstanding program. Our thanks also to Major Dennis Hoyer and Captain John Harris for their part in organizing the visit.

Brigadier General Harold Strack and his staff of the 90th Strategic Missile Wing should be complimented for the highly impressive briefings and tours conducted at Warren Air Force Base. I was particularly pleased to hear of the opportunity our officers had to exchange views with a large number of officers and men during the luncheon. A special note of thanks should be extended to Lt. Colonel John Wallace, the project officer at 90th SMW, for making the arrangements for the visit.

I consider the visit to the Strategic Air Command an important part of our Midcareer Course. A "well done" to all concerned in making it such a success. I hope that our Midcareerists can continue to have the opportunity of visiting Strategic Air Command Headquarters and the 90th Strategic Missile Wing.

Sincerely,

Mr. W. -

A minor point -- but maybe  
important enough to note.

I noticed that the signature block  
for Gen. Cushman does not  
appear to be centered -- I  
checked the carbon cy and note  
that the signature block on the  
carbon is not "in the same  
location" as on the orig .  
In fact, the signature block  
on the copy looks OK.  
The letter was apparently  
typed in two typings. I'm  
wondering now if each copy  
should be proof-read??? re-do  
the entire ~~lt~~??? I think it  
is a little risky to send forward  
as is.
